

GSGHAIR Care Instructions

Seamless Contour Band for Dreamy Hair

Congratulations on your GSGHAIR extensions!

For long-lasting quality, a perfect fit, and an invisible seamless transition.

The GSG Seamless Contour Band, made from 100% European human hair, is a particularly gentle, glue-free system with a breathable, scalp-mimicking mesh (lace). To maintain the hair, the mesh base, and its natural flow, the system requires specific care.

1. The Right Washing Method – Step by Step to Perfect Care

Note regarding fine beards & the first wash:

With the GSG Seamless Contour Band, fine, short hairs – sometimes called "beards" – may be visible at the base. These are intentionally incorporated during the manufacturing process and are part of the quality concept. When applied, they provide more lift, stability, and volume in the front contour area and enhance the natural push-up effect.

After the first recommended wash, the hairs will visually blend with the band, becoming significantly less visible. The hair will fall more evenly, and the seamless effect will be enhanced. Function and volume remain completely intact – only their visibility is reduced. If desired, the beards can be carefully and gradually trimmed with fine scissors. This process is normal and contributes to the professional, natural final result of the GSG Seamless Contour Band.

Before washing:

Before washing your Contour Band, it's important to gently detangle your hair. Use your fingers or, ideally, our GSG extension brush. Always start at the ends and work your way up to the roots – this will prevent breakage. Avoid pulling sharply – this protects both your hair and the net base.

When washing:

Do not wash the contour band on your head, but in your hands – this keeps the hair structure supple and prevents unnecessary stress on the contour band.

Use only lukewarm water.

Gently shampoo the hair and the net (lace base).

Wash twice in succession with the recommended products: The first wash removes residue, the second wash cleans thoroughly.

Be careful **not to rub or scrub**, but only massage gently.

Then rinse the net well and gently.

Post-wash care:

After rinsing, apply a **high-quality hair mask or conditioner** to towel-dried lengths and ends – **never onto the net!** This ensures the base remains light, strong, and breathable.

Leave the treatment in for 5 to 10 minutes, then rinse thoroughly with lukewarm water.

Finally, gently squeeze the excess water from your hair with a towel – **never rub it dry**, as this damages the hair structure.

Extra care tip:

After conditioning, pamper your ends and lengths with J Beverly Hills Revive Oil – apply to damp hair before blow-drying and, if needed, also to dry hair. The oil is not rinsed out and provides long-lasting shine and nourishment.

Recommendation:

With daily wear, we recommend washing at least twice a month. Depending on styling products used or environmental factors, more frequent washing may be necessary.

2. Hair Care No-Go's – These Mistakes Should Be Avoided

There are some common hair care mistakes you should definitely avoid to prevent shortening the lifespan of your extensions:

- Hairspray is a no-go!** It contains alcohol, dries out the hair, and makes it sticky.
- Never wash your hair upside down!** This leads to knots and can damage the extensions.
- Don't rub your hair dry!** Instead, always gently squeeze out excess water with a towel.
- No air drying!** Never let your hair air dry, as heat is needed to seal the hair.
- Be careful with sunscreen and seawater!** Both can change the color of your extensions and damage their structure.

3. The Right Products – For Long-Lasting Healthy Hair

Our GSG extensions are made from 100% high-quality human hair and therefore deserve equally high-quality care products.

We recommend using our J Beverly Hills care line:

- Natural ingredients**
- Free of silicones, parabens, and sulfates**
- Gentle on the scalp**
- Ideal for extensions and your own hair**

This care not only protects the hair structure but also gives your hair renewed strength and radiant shine – from the inside out!

4. Your Daily Care Routine – The Essentials

Brush your hair at least **twice a day**, morning and evening, with our extension brush.

Don't forget the net – it should be gently detangled as well.

Tip: If you encounter small knots, patiently work your way from the bottom up.

5. Styling – Yes, but do it right!

Of course you can style your extensions – just like your own hair!

Blow-drying, straightening, curling – all allowed, but in moderation and with the right protection.

Important styling rules:

- Always blow-dry on a medium heat setting.
- Use our J Beverly Hills Revive Oil before blow-drying to protect the hair structure.
- When straightening or curling, use heat tools with a ceramic coating – they are significantly gentler on the hair than conventional tools.

6. Sealing – The Finishing Touch for Long-Lasting Style

After blow-drying, we recommend gently sealing your extensions with a curling iron or flat iron. This ensures smooth lengths and a polished finish.

Reshaping the Net (Seamless Effect):

After drying, the net can be straightened if needed:

- Set the flat iron to a maximum of 120°C (248°F)
- Carefully pull the net flat
- Don't hold it in one spot for too long

This will ensure the net lies perfectly flat again, and the seamless transition remains virtually invisible.

Finally:

Use J Beverly Hills Shine Spray – for shiny, smooth hair.

Note:

Shine Spray is not hairspray! Our product conditions and adds shine without weighing down the hair structure.

7. Proper Overnight Storage

The contour band should not be worn at night.

- Place it on a wig stand or hang it up overnight.
- This helps maintain its shape.
- This relieves tension on the net.
- The base remains hygienic and ventilated.

Conclusion: Love your hair – it loves you back

With the right care/products and a few minutes a day, your contour band will stay as beautiful as you are. It will retain its shape, lie flat, fall naturally, maintain its seamless effect, and remain reusable for a long time.

Your extensions are your luxury – treat them as such!

If you have any questions or would like a personal care consultation: We're here for you.

Stay gorgeous ❤️
